III.3 Quality of Investment Plans

At Compact Signature
- Not refined
- Not well costed
- Not fully aligned

At Business Meetings
- Significant Improvement
- Experts Inputs
- Technical Assistance
- Specialized Agencies
III.3 Quality of Investment Plans

General Issues of Investment Plans

- Low capacity of In-Country Teams
- Insufficient Technical Assistance
- Inadequate Programme Coherence
- Imbalances between investment areas and 4 pillars
- Insufficient consideration of value chain development
- Coherence between expenditure and economic impact and poverty reduction
- M&E Framework and implementation modalities
III.3 Quality of Investment Plans

Way forward for improved Investment Programmes:

1. Improvement of Quality since development of Post-Compact Roadmap
2. Room for further improvement
3. Focus on Post-Compact resulting in slow down of progress in countries at Pre-Compact Stage
COMESA REGIONAL COMPACT
IV.1 Objective of Regional Compact

- AUC/NEPAD Recommendation
- Add value to National CAADP Compact
- Facilitate investments in areas where individual countries cannot effectively invest e.g. Trans-boundary and multi-country areas
- Increased involvement of private sector, PPPs and development partners
- To forge regional cooperation and integration
IV.2 Current Status

- Draft Regional Compact Document is ready since early September

- **Major Areas:**
  - Agriculture Commodities along the Value Chains
  - Productive Infrastructure for increased productivity, value addition and trade
  - Institutional and Human Resource Development at all levels (Farmers, Trader, processors etc.)

- **Next Steps**
  - Extension into Tripartite Framework – COMESA, EAC, SADC
Thank you!
